- Form will be a login/register in the final build.
- Scroll bars not visible on pages but will appear when content fills more page than is visible.
- All menu functions from the desktop site will be available here.
- Log out in top right
- This will be a selection of new Popular books from various genres

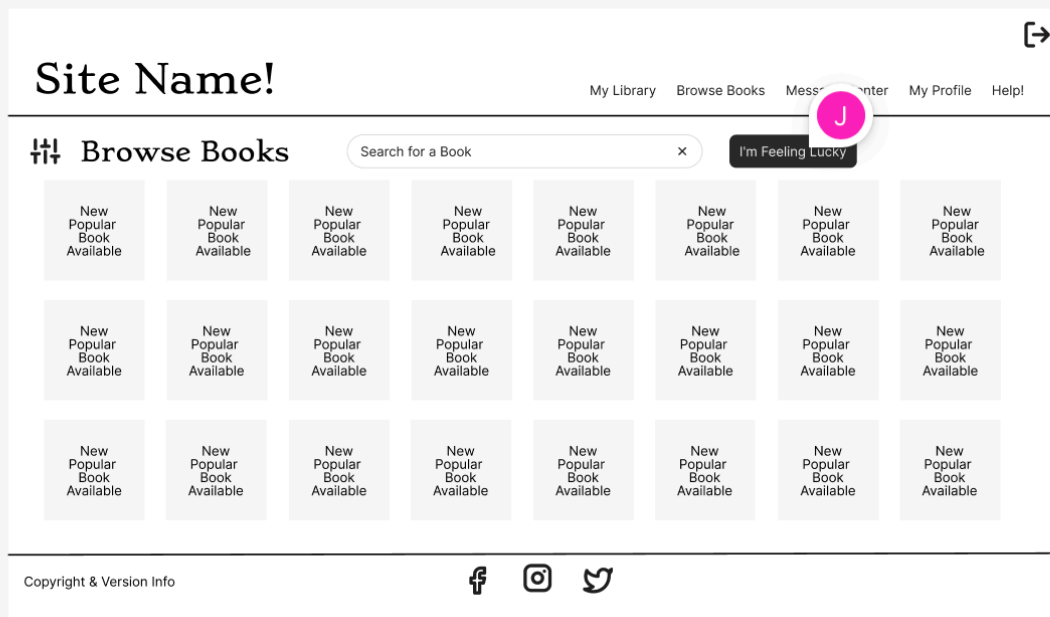

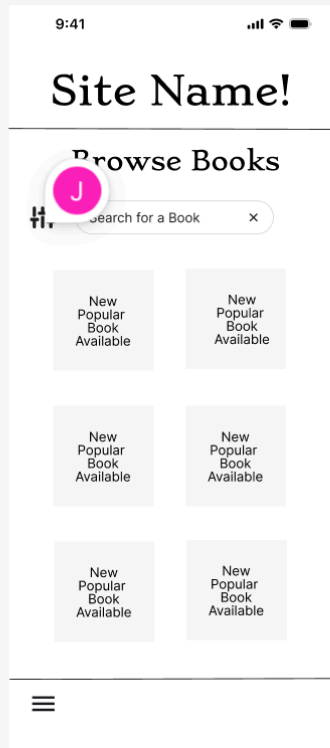

-

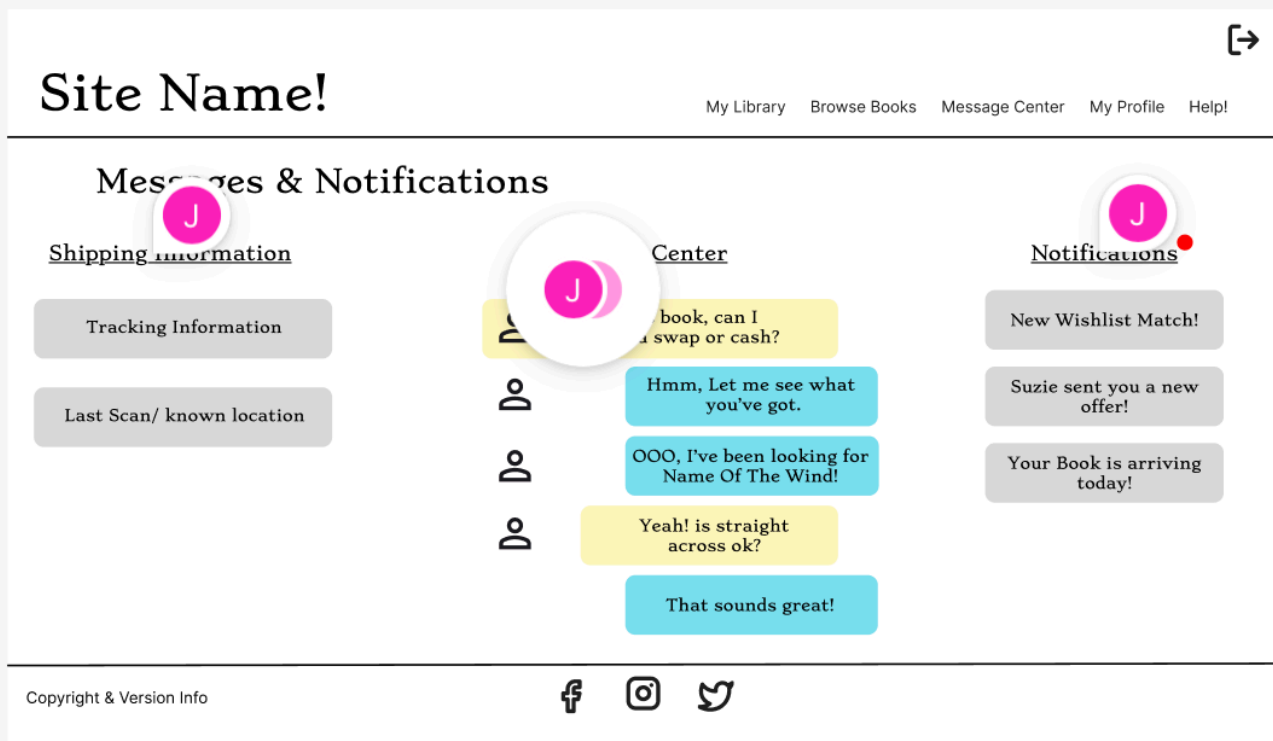

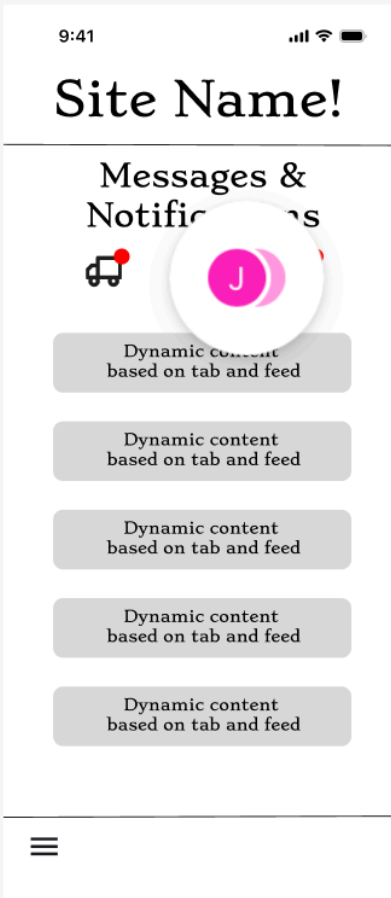

- Book tiles will include, an image of the cover, Title, Author, and will be "clickable" taking you to the edit book page, to mark it as available/unavailable, and let you read and edit any reviews/notes
- This will also contain the submenus listed in our Navigation Structure.
- Wishlist will come into view as you scroll the page on My Library.

- This will pull out a slide with various filter options including, Author, Title, Genre, Price, etc.
- Picks a random book, when hovering alt text will display "Picks a random book"

- Shipping tab, to track shipments and receive updates. Note that Icon badges only appear if there is new activity.
- Message center, to compose offers to other people, negotiate, or even chat about book you love!
- Notifications, ex. Wishlist item available, new chat, new offer, shipment update! Dependant on setting (to be included at a later date,)
- This content will update dynamically based on which tab (Shipping, Chat, Notifications) you're on, or if you've just navigated to the page, it will display a chronological list of most recent shipping/chat/notification items. Due to our short timeline, it's likely that we'll only be able to deploy basic versions of these features, or they will be mocked.
- Shipping tab, to track shipments and receive updates.
- Previous conversations. Sorted by most recent (that may be a feature for future upgrades)
- Notifications, ex. Wishlist item available, new chat, new offer, shipment update! Dependant on setting (to be included at a later date,)

- Inserted some default forms to give a sense of what this page will look like, much greater detail will present in the final product. Again, scroll bar not visible, but page scrolls.
- Link to personal reviews.
- Note that shipping costs are currently estimates/ flat rates, this page and form are placeholders and are only meant to represent design concepts, and will change before deployment
- Note that this form field is a place holder and will be replaced in the final release candidate, it is merely here to give an idea of layout.

The image displays three mobile application wireframes for a site named 'Site Name!'. Each wireframe includes a status bar at the top showing the time as 9:41 and signal/battery icons. A pink circular icon with the letter 'J' is overlaid on each wireframe.
